

My hobby is playing volleyball, the guitar, dancing and I like to paint.

---

I really like volleyball. I play everyday. When I was 10 years old I learned to play volleyball. My brother taught me because he was training it. I used to go to volleyball school, but I'm quit it and now I only practise volleyball during my PE lessons. I really like it because I love sport. Everyday I run, play football, play volleyball. I love these sports.

My second hobby is playing the guitar. I learned how to play 2 years ago. I play the calm music. I always compose the music on my own. My guitar is not special. I play for me, not for people. I'm not so good to show it to people.

My third hobby is dancing. I like it but I don't go to any dance schools, because in Mońki there is no such schools. I

learned it from films and from my friends. I hope that in the future I will go to a dance school. I really would love to.

My fourth hobby is painting. I love this. I paint people, animals and nature. I have many my own pictures but I don't show them. I sometimes paint for my friends and I give them the pictures as presents. They're really happy. I was painting when I was a child. Then it inspired me. I was painting my mum, dad, grandmother, grandfather, and my brother. I love, love this.
