

## My Hobbies

My name is Katarína Haffnerová and I want to tell you about my activities and life feeling. I am seventeen years old and like every teenager, I prefer going out, being with my friends . When I want, I do nothing. I love this part of my life, this is amazing. I like many sports and when I can, I go out jogging. But I prefer roller skating to cycling, because there I can talk about everything with my friend. However, I love to be with my family as well. With my brother I can go back into my childhood. In summer I like swimming in the pool and sunbathing. And I forget that I love snowboarding. I like sports with a ball but I prefer volleyball to basketball. I watch basketball only on television. I am into volleyball. I prefer sport to all other hobbies, because it is very good relaxation and it can form our bodies.
