

MY INTEREST

I'm interested in music very much. I love rock music and things like that but I can't stand jazz. It's terrible for me when I hear saxophone. I prefer guitar to saxophone.

I can play the piano and I love it. When I play the piano I feel very well and happy. I don't mind loud music because I love discos and concerts. I really like dance.

I like classical music, too. It's very beautiful. I prefer piano to orchestra but I like both. I quite like Mozart. I think he was a genius.

My favourite group is Lifehouse or The Fray. They are rock group and this is my favourite style of music.
