

Ewa Kapica

My hobby is cycling. I love to read books, swim, play soccer.

Football – Sport by which all people express their emotions.

Swimming ... the perfect sport . It helps in concentration, thanks to swimming, I feel that I'm alive. I feel like I was in a distant glow. Like between me and other people there was a certain limit.

Above all, the most important role in my life is playing music. Without music life is boring, the world seems to be less colorful.

Book is a magical world to which I move while reading.
